The competition in Turkey is not an official IWWF sanctioned event yet, we are still working on making it official, this is why we have entered it on our calendar already.

The officials panel for the Cableski World Championships will be decided by the World Council, however if you are interested to be on the panel please inform us, so we can pass the info on.

Officials who want to function at any of the titled events have to attend the Cableski Seminars on a regular basis.

Please fill in as many competitions as possible so that we can select an optimal officials panel for each of our competitions.

Thank you.
